DETAILED ACTION

Inventorship

1. In view of the papers filed July 22, 2004, it has been found that this nonprovisional application, as filed, through error and without deceptive intent, improperly set forth the inventorship, and accordingly, this application has been corrected in compliance with 37 CFR 1.48(a). The inventorship of this application has been changed by the deletion of Paul K. Novak as an inventor.

The application will be forwarded to the Office of Initial Patent Examination (OIPE) for issuance of a corrected filing receipt, and correction of Office records to reflect the inventorship as corrected.

Claim Rejections - 35 USC § 102

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

3. Claims 139-156, 161, 163, 166-177, 179-183, 191-193, 197 and 198 are rejected under 35 U.S.C. 102(b) as being anticipated by Reid 5,662,233.

Reid teaches a wine bottle closure comprising a threaded bottle 26 with a recessed neck 24, threads 23, recesses formed by the lower end of the threads, and a flange, a closure 11 comprising a threaded sleeve 13, means for engaging a stopper 37, a flange 57, a removable cap 15 that is secured to the stopper (see column 6 line 56 through

column 7 line 17), and a stopper 25 with a planer seal portion 59, 33, a depending plug portion 27 and sealing ridges 29.

4. Claims 173, 178 and 184-188 are rejected under 35 U.S.C. 102(b) as being clearly anticipated by Hayashida et al. 5,570,798.

5. Claims 173, 189 and 190 are rejected under 35 U.S.C. 102(b) as being anticipated by Ochs 4,809,858.

Ochs teaches a composite closure comprising a threaded sleeve 5, a cap 8 with an aperture, and a plug joined to the cap 10 with a protruding seal flange 12, 13.

Allowable Subject Matter

6. Claims 157-160, 162, 164, 165 and 194-196 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Conclusion

7. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
